

GREENE COUNTY HEALTH DEPARTMENT SEPTEMBER 2019 RETAIL FOOD INSPECTIONS

The "critical violations" listed below are **foodborne illness (FBI) risk factors** which pose an immediate health risk. Common factors that contribute to these are not limited to the food's temperature maintenance, cross contamination and personal hygiene. Violation of the Foodborne Risk Factors require immediate correction or a designated period determined by the Department. The non-critical violations identified as **good retail practices** (a less risk of FBI) concern sanitation, additional pathogens, chemicals, and physical objects into foods. The general correction time for these violations is 30 days unless otherwise determined by the Department.

| FACILITY | LOCATION | INSP DATE | TYPE OF INSPECTION | RISK FACTOR VIOLATIONS | GOOD RETAIL PRACTICES VIOLATIONS |
|--------------------------------------|------------|-----------|--------------------|------------------------|----------------------------------|
| Brass Door Restaurant | Carrollton | 9/11 | Routine | | |
