

ANSI-CFP Accreditation Program (Accredited)

(American National Standards Institute & Conference for Food Protection)

	ORGANIZATION	ID
1	<u>360training.com, Inc.</u> Food Protection Manager Certification Program	0975
2	<u>Environmental Health Testing, LLC.</u> Food Protection Manager Certification Program	0656
3	<u>National Restaurant Association</u> ServSafe® Food Protection Manager Certification Program	0655
4	<u>Prometric Inc.</u> Food Protection Manager Certification Program	0659

The above websites provide instruction and education to enable you to sit for an exam which upon passing will enable you to obtain an Illinois Food Service Sanitation Certification. If you select to enroll online to complete the course please note to select the manager course and not the handler course. Upon completion of the chosen course you will be instructed to contact a "proctor" for that particular corporation selected. The student will have to take the exam in front of the proctor whether it is an online exam or a printed version. Presently the only company where there is an approved proctor at the Greene County Health Department is SERVSAFE. In the coming months the Department's instructor will be approved by the other companies listed above to give the exam of that Certification Program. If there are any questions please contact Liz Stemm at the Greene County Health Department.
